

A leading automotive manufacturer used TASC PRO services for process improvement

CHALLENGE

- > The client's current outsourcing partner was not delivering desired results
- > The client wanted to migrate to another service provider but did not want service disruption
- > The client also to optimise his processes and process improvements during migration. It was not a usual "lift & shift"

EXECUTION

- > TASC team did an AS-IS study of the process to transfer knowledge
- > TASC then devised a transition plan based on Lean Six Sigma to ensure speed and Quality
- > Finally TASC deployed dedicated project managers to lead the execution and governance

RESULTS

- > **200 Employees managed**
- > **2 PROs seamlessly outsourced to TASC**

3 Process improvements delivered within 1st month
